Skills

Languages JavaScript • Ruby • SQL • Python • HTML • SASS • CSS
Frameworks/Libs React • Redux • jQuery • D3.js • Rails • RSpec
Expertise Web Development • AJAX • RESTful APIs • Data Analysis • Data Viz • Web Scraping

Projects

Betternote (React.js, Redux, React-Quill, PostgreSQL, Rails)

[Live](#) | [Github](#)

A FAITHFUL EVERNOTE CLONE

- Rich-text editing achieved by leveraging React-Quill
- Created notes to notebooks and tags associations through ActiveRecord models and associations
- Auto-save feature was implemented using an asynchronous timeout that initiates an auto-save on an initial note change and gets reset on continuous note changes

Smooth (React Native, Ruby on Rails, Google Maps API)

[Live](#) | [Github](#)

AN IOS PATH-FINDING APP

- Gathered road network, crime, and elevation data using open source APIs
- Modeled data as a graph to use A* algorithm to find the shortest weighted path to destination
- Designed mobile UI/UX using React Native and React Navigation

NBA Snapshot (D3.js, jQuery, HTML, CSS)

[In progress](#) | [Github](#)

AN INTERACTIVE DATA VISUALIZATION OF IN-GAME NBA STATISTICS

- Implemented two interactive sunbursts to allow users to explore in-game player to team contributions
- Achieved sunburst's zoom feature by using d3's interpolation and arc tweening techniques

Education

University of California, Santa Barbara

[Santa Barbara, CA](#)

B.S. IN PHYSICS

[Aug 2010 – Jun 2014](#)

AppAcademy

[San Francisco, CA](#)

WEB DEVELOPMENT

[Jul 2017 – Oct 2017](#)

- Rigorous 1000-hour coding bootcamp with < 3% acceptance rate

Experience

Data Analyst

[San Francisco, CA](#)

DAILYSHOES

[Apr 2016 – Jun 2017](#)

- Played key role in inventory replenishment by forecasting sales for products across different marketplaces, saving over 20% in storage fees caused by over and under stocking
- Was key contributor in new products development by developing tools to monitor up-and-coming trends
- Wrote robust ETL processes in Python to extract data from various sources to data warehouse
- Developed automated processes to update inventory and price changes across marketplaces
- Created dashboards and reports to monitor business performance and aid in business decisions
